Lucian Oprea, MD, is a Board Certified Internist and Geneticist providing primary care through the Imperial Valley Family Care Medical Group. He is a member of the UC San Diego Health Physician Network.

UC San Diego Health Physician Network is an alliance of health care providers based in San Diego, Riverside and Imperial counties. Members of the network collaborate on developing shared systems, infrastructure and quality initiatives to provide high-value health care in the region.

As a primary care physician, Dr. Oprea provides preventive care and treatment of acute and chronic diseases for adults. He envisions serving the community and provides this service currently through Imperial Valley Family Care Medical Group's Rural Health Clinic. Dr. Oprea has a special interest in Genetics and Genomics and has completed a secondary certification in this subspecialty.

Dr. Oprea earned his Medical Degree in Romania at the Carol Davila University of Medicine and Pharmacy in Bucharest, Romani. Upon completion of his medical degree, Dr. Oprea served in the military at the medical Services Corp in Bucharest before going on to complete one of two Residency programs, the first was in Emergency Medicine/Internal Medicine at the University of Bucharest in Bucharest Romania. He completed a second Residency program in Internal Medicine at New York University affiliated Hospitals (Manhattan VA Medical Center, Bellevue Hospital Center and New York University Medical Center) in New York, NY.

Dr. Oprea went on to complete a Research Fellowship in Genetics at Harvard University/Massachusetts General Hospital in Boston, MA, a Residency/Fellowship in Medical Genetics at University Hospitals of Cleveland/Case Western Reserve University in Cleveland, OH and was a
